. We re finally learning to fight now, we take to it well
                   C#m
Till we are pure potential, imaginal cells
You always were a wild one, you like to bend the rules
                                                     | B |
But baby when the time comes I might surprise you too
              В
You laugh like nothing can touch you
               C#m
The skies might open above you
When the rain pours down and the wind whips high
This love is a hurricane, you are the eye

. You are the eye
                   C#m
. I can t make a connection, don t trust it to hold
                        C#m
Though we cling to each other through the battering storm
Pain passes but slowly and pleasure gone too soon
A copper manzanita we have to burn to bloom
You laugh like nothing can touch you
               C#m
The skies might open above you
When the rain pours down and the wind whips high
This love is a hurricane, you are the eye
                              C#m

I ll stop telling you what you want to hear
