

I Can't Take You Anywhere
Toby Keith

G **Em**
You ve been a part of my life for so very long
C **D7**
It s hard for me to believe sometimes that you re really gone
G **Em**
I tuck your memory away in my special hiding place
C **D7**
Hoping no one can tell by the look on my face
C **D7**
That you re still in my heart and always on my mind
C **D7**
And part of my everyday
G **Em**
Like just last night I went out for a bite
C **D7**
I tried to have fun with all of my might
G **Em**
But even the laughter it wasn t much of a break
C **D7**
Cause right in the middle of my salad and steak
C **D7**
Bobby Joe walked in with a couple of friends
C **D7**
And said, Hey have you heard from her at all man like, Where s she been?

(Chorus:)

G
And it, struck a nerve
Em
And it, hit a vein
C
You d think from all the tears I cried
D7
And this broken-hearted pain
G
I wouldn t have to carry you around with me
Em **C**
But it seems like everywhere I go
D7 **C**
Somebody wants to know where you been
D7 **C**
Are you comin back again, I swear
D7 **G** **Em** **C** **D7**
I can t take you anywhere

So I left all alone, just headed back home
As I listened to the messages on my telephone

There was one from my sister
And one from an old friend
He said, I drove by your house tonight dude but you wasn't in
Just checkin' up on you boy, I hope you're doin' alright,
Oh by the way man, I seen her last night

(Chorus)

C **D7**
I swear, I can't take you
C **D7..**
Just can't take you
G
I can't take you anywhere
