Stranger standin in the doorway

As they re passin out the dessert

He said go on and pack your bags

Cause I m here to take you home

I m goin back to Louisiana

And woman I ain t gonna go with out you

There s a few defining moments in every person s life

When you know what you ve done wrong

And you know what you ve done right

And before the congregation and her husband and her kids

She says, How dare you even speak to me

After everything you did ...in

That s another town, that s another life
