Capo 4
[Intro]
G Am C Am
[Verse 1]
My whole life I wondered how
        Αm
This won-dering heart could turn around
                    Am
It s o-ver now, yeah
Imma leave my selfish melodies
            Am
Wanna be in your beautiful symphony
Its o-ver now
[Pre-Chorus]
                          Am
You sing to me and my heart comes to life
Beating for You everytime
                             Am
And now that I hear you, oh I love the way
Your cho-rus gets stuck in my mind
[Chorus]
                                                     Αm
Like a lyric to my favorite song, you stick with me all day long
                     \mathbf{Em}
And when I reach the end, I wanna hear it a-gain
Like a lyric to my favorite song, you stay with me all day long
                     \mathbf{Em}
And when I reach the end, I wanna hear it again

Lord you flip my words and change the tempo and some-how you just make it
