

Apple Pie  
Todrick Hall

Em D Bm C x2

[verse 1]

Em D Bm C  
Take a second to reflect on your reflection in the mirror looking back at you

Em D Bm

C  
Take a moment to forget what you've been told and just remember what your heart  
says too

Em D  
Reconsider that your mind is so much bigger

Bm C  
And the picture's never been more clear, no

Em D  
And when your spirit feels like it's disappearing

Bm C  
Well I hope that you can hear it saying

[Chorus]

G  
Baby change is coming

D  
Got peace and love in the oven

Em  
Just mix that sin with cinnamon in

C  
We're free like the Fourth of July

G  
Tell darkness keep on running

D  
The clouds will part and let the sun in

Em  
Open your heart and let someone in

C  
It's easy like apple pie

[verse 2]

Em D  
Take a second to look in the right direction

Bm C  
Cause we're headed for a brand new day

Em D  
Take a minute just be careful how you spend it

Bm C  
Because karma has a pretty large price to pay
