

**I Aint Scared Of Lightning**

**Tom McRae**

**G#**

I ain t scared of lightning

**Eb**

Come on and do your worst

**C#**

If they gave degrees

**Bbm**

For cheating destiny

**Eb**

Then man

**G#**

I got a first

*(exact same chords throughout the song)*

No, I ain t scared of lightning

It s the same old empty threat

I ve been standing proud

Beneath the gathering cloud

And man

I ain t dead yet

No I ain t scared of lightning

And thunder never killed

I was born in a summer storm

I live there still

Yeah, I was born in a summer storm

I live there still
