Still Love You - Tom McRae

Tabbed by: Rohan

This is a (pretty damn awesome) ukulele song, so you ll want one of them to get the sound good...

Very simple, basically just:
[Verse]
Fm C#

[Chorus]
G# Fm

He plays a little fill on the EM and C (same with the G, just alternate the top E with a C)

Something like:

A--2-22-00-22--2-22-00-22-|
E--3-33-33-33--0-00-00-00-|
C--4-44-44-44--0-00-00-00-|
G-0-----0-----|

Lyrics:

Fm

When I walk through

C#

The bone yard with you

Fm

I think I m walking hand in hand

C#

With my own ghost.

Fm

I ve been many things,

C#

Played a fool to catch a king

Fm

And I ve even been the man behind the walls

C#

Who hears your screams

G#

Fm

But I, I still love you

G#

Fm

Yeah I still love you

Fm

Like a wolf on a black new moon

C#

A shadow boxer at high noon

Fm

I m acting lost and so confused

C#

That much is clear

Fm

Are you the one I ve come to save

C#

Are you the water or the wave

Fm

Am I drinking you down deep

C#

Or drowning here

G#

Fm

But I, I still love you

G#

Fm

Yeah I still love you
