Verse

**C Fmaj7**

Jesus Christ, was that my tongue or a knife  
The things i say leave me ashamed  
My skin burns from the flames, ive got gasoline in my veins  
Ive got the sun in my back, and the world in my sights

Bridge

**Em F**  
So strike up the band  
ill put the flames out with my own hands, for you

Chorus

**C C/B Fmaj7**

Go on go on go on  
Take all of me dont let this be the only thing i know  
And dont ever let go

next verse same thing

Ashes fall from your lips, and I m counting the ways, the counterfeit  
And if I know your disguise, well it used to be mine  
I ll carry you through this burning land, and when the water s gone, we ll  
drink the sand  
I ve got nothing left for the journey home

Bridge again same chords

And I've run out of gods to burn, so this fever will return  
For You

Chorus again

Then another section, chords are the same as the chorus but the rhythm changes

This distance run, this smoking gun  
The failure in your eyes  
Things fall apart, this stone I carved  
Has fallen to the floor  
Still so easily ignored  
Still so easily ignored

This is all of me  
This is all of me  
This is all of me  
This is all of me
