

Built To Last
Tom Petty

Accurate as far as I know. Wonderful song, and easy too! This is the only tab of it I've seen on the Net, so make changes as you please.

-Lily

~~~~~

(Verse)

**C Am**  
Somewhere out my doorway  
**C Am**  
Somewhere down my block  
**C Am**  
I can hear her heartbeat  
**F C**  
In rhythm with my clock  
**C Am**  
I want her more than diamonds  
**C Am**  
I want her more than gold  
**C Am**  
I want her more than anything  
**F C**  
Anyone could hold

**Am**  
We were built to last  
**C**  
On until forever  
**Am**  
The world is changing fast  
**F C F C**  
Oh, But our love is built to last

(Verse)

She has followed me down  
Along some empty streets  
She has followed me where  
The rain would fall in sheets  
And I know I've been changing  
Changing like the wind  
I was feeling burned out  
I got tired of it

(Chorus)

We were built to last  
On until forever  
The world is chan ging fast  
Oh, But our love is built to last

Woah...

Woah...

(Verse)

So come to me my darling  
Hold me while I sleep  
I know you feel lost  
But you re not in too deep

(Chorus)

We were built to last  
On until forever  
The world is changing fast  
Oh, But our love is built to last  
Yeah our love was built to last
