

**Down Down Down**  
**Tom Waits**

**Cm**

He went down down down

and the devil called him by name

He went down down down

hangin onto the back of a train

**Fm**

He went down down down

this boy went solid down

**Cm**

Always chewed tobacco and the bathtub gin

Always chewed tobacco and the bathtub gin

**G7**

He went down down down

**Fm7**

This boy went solid down

**Cm**

He went down

Well, he went down down down

and the jumped on his head

He went down down down

stayin in a broken down shed

He went down down down

sleepin in the devil s bed

He went down down down

never listened to the words I said

He went down down down down

He went down

Well, he went down down down

and the devil said where you been

He went down down down

He screamin down around the bend

Down down down, this boy went solid down

He was always cheatin and he always told lies

He was always cheatin and he always told lies

He went down down down

down down down

This boy went solid down

He went down
