What did you do the last time?

(The chords are the same the whole song)

Why don t you do that

Go on ahead and take this the wrong way

Time s not your friend

Do you cry. Do you pray

Do you wish them away

Are you still leaving nothing

But bones in the way

Did you bury the carnival

Lions and all

Excuse me while I sharpen my nails

And just who are you this time?

You look rather tired

(Who drinks from your shoe)

Are you pretending to love
 Well I hear that it pays well
 How do your pistol and your Bible and your
 Sleeping pills go?
 Are you still jumping out of windows in expensive clothes?
 Well I fell in love
 With your sailor s mouth and your wounded eyes
 You better get down on the floor
 Don t you know this is war
