

Light Of Day  
Tommy Stinson

Verse 1:

**E** **C#m**  
We ll always make it through the day  
**G#m** **B**  
There s always gonna be a better way, always be someone else s way  
**E** **C#m**  
Even when we know we ve gone too far  
**G#m** **B**  
Closer to the edge is so much further than we ll get without a car

**A** **B**  
And everyone s lookin for some place  
**A** **B**  
They re just killing more time than space  
**A** **G#m** **C#m**  
Some nights I wish that the sun would  
**B**  
Never show its face

Verse 2:

**E** **C#m**  
You re so beautiful at night  
**G#m** **B**  
The moon s got a way of lighting you, the way no pictureâ€™s ever goin to  
**E** **C#m**  
Even when the stars begin to weep  
**G#m** **B**  
We ll laugh at the expense of all their grief, you never made me feel like I m a  
creep

**A** **B**  
And everyoneâ€™s lookin for some space  
**A** **B**  
We re just killing time all over this place  
**A** **G#m** **C#m**  
Some nights I wish that the sun would  
**B**  
Never show its face

Wouldn t want to face the light of day  
**E** **C#m** **G#m** **B**  
Face the light of day with anyone

Will you face the light of day with anyone

Like I ll face the night with you
