Flower Man Tonic

Flower Man - Tonic

F G G#

Flower man, flower man

F G G#

When are you gonna grow

F G G#

When you gonna lay down

F G G#

Everything you know

Flower man, flower man How you gonna sleep With all these people Cutting down your feet

Bb C C#

Flower man

Bb C C#

Flower man

Flower man, flower man Your head s above the rest If you re gonna trust them You gotta past the test

Flower man, flower man You re living in the sun Shattered and hollow You shine for everyone

C C#

They re given enough to hurt you

C C#

With all the things they say

C C#

So you put on your armor

C C#

And stand in the way

You re wearing the target
That took so long to earn
And your start looking sideways
At every turn

You start looking sideways At every turn
