

Flower Man  
Tonic

-----  
Flower Man - Tonic  
-----

**F# G# A**

Flower man, flower man

**F# G# A**

When are you gonna grow

**F# G# A**

When you gonna lay down

**F# G# A**

Everything you know

Flower man, flower man

How you gonna sleep

With all these people

Cutting down your feet

**B C# D**

Flower man

**B C# D**

Flower man

Flower man, flower man

Your head s above the rest

If you re gonna trust them

You gotta past the test

Flower man, flower man

You re living in the sun

Shattered and hollow

You shine for everyone

**C# D**

They re given enough to hurt you

**C# D**

With all the things they say

**C# D**

So you put on your armor

**C# D**

And stand in the way

You re wearing the target

That took so long to earn

And your start looking sideways

At every turn

You start looking sideways  
At every turn
