

**Wicked Soldier
Tonic**

When I heard this song I was strangely pulled in by it, maybe I just loved the sound. But when I realised that it wasn't tabbed anywhere, I decided to do it myself. I think it's right, I'm not sure if it's 100%, but it sounds good! I won't put strumming patterns, but it's pretty easy to pick up! Just listen to the song. There is a bit at the end, they just play a bit with the chords, but it sounds fine to miss it, if you want. If anyone has it please tell me!

Hope that made sense! Enjoy, and happy playing!
