

Always The Song
Tony Joe White

Tony Joe White - Always The Song

(Intro: **Am**)

Am G Am
I remember the first time we touched we almost caught fire
Am G Am
Right there in the middle of night we almost caught fire
C F G C
Burning each other down and the feeling went on and on
Am G Am
And somewhere in the background always the song

It s always there between us so strong it never breaks
Pulling us together sometimes when there s no other way
I wonder if it s more than fire that s kept us together so long
All the way down through our lives always the song

Am G F C
Baby you re good for me and that s all I ve got to say

Am G F E
And all the times we ve been through you ve been a woman all the way

(Guitar solo: chords same as in the verse)

You know when I've been wounded and I need a place to hide
You see me walking straight up but you know I'm bending inside
You try to help me handle the pain when someone I love has gone
And somewhere way out in the rain always the song
