

Backside Of Paradise
Tony Joe White

Tony Joe White - Backside of Paradise

(Intro: **E**)

E They say I was born on a stormy night jammin' to the blues
A G E
My mama thought that I was a good luck charm

But I think that I was touched with the hoodoo

A **C** **D** **E**

I must have been a swamp doctor s sacrifice

Cause I m on the backside of paradise

All out of rhythm in my snakeskin shoes a victim of the dance
A medicine man gave me something for my nerves
But I think it was an aphrodisiac
Suspended animation with my temperature on the rise
I m on the backside of paradise

(Guitar solo: **E, A, C, D, E, C, B7, E**)

I can look out but I can't see within
Can't face what's behind the mask
On top of the world with you under my skin moving too fast
She's a hot blooded octaroon with a heart cold as ice
I'm on the backside of paradise
I'm on the backside of paradise
