

**Backside Of Paradise**  
**Tony Joe White**

Tony Joe White - Backside of Paradise

(Intro: **E**)

**E** **A** **G** **E**  
They say I was born on a stormy night jammin to the blues  
My mama thought that I was a good luck charm

**A** **G** **E**  
But I think that I was touched with the hoodoo

**A** **C** **D** **E**  
I must have been a swamp doctor s sacrifice

**C** **B7** **E**  
Cause I m on the backside of paradise

All out of rhythm in my snakeskin shoes a victim of the dance  
A medicine man gave me something for my nerves  
But I think it was an aphrodisiac  
Suspended animation with my temperature on the rise  
I m on the backside of paradise

(Guitar solo: **E, A, C, D, E, C, B7, E**)

I can look out but I can t see within  
Can t face what s behind the mask  
On top of the world with you under my skin moving too fast  
She s a hot blooded octaroon with a heart cold as ice  
I m on the backside of paradise  
I m on the backside of paradise
