Tony Joe White - Backside of Paradise

(Intro: **Eb**)

**Eb** **G#** **F#** **Eb**  
They say I was born on a stormy night jammin to the blues  
My mama thought that I was a good luck charm  
**G#** **F#** **Eb**  
But I think that I was touched with the hoodoo  
**G#** **B** **C#** **Eb**  
I must have been a swamp doctor s sacrifice  
**B** **Bb7** **Eb**  
Cause I m on the backside of paradise

All out of rhythm in my snakeskin shoes a victim of the dance  
A medicine man gave me something for my nerves  
But I think it was an aphrodisiac  
Suspended animation with my temperature on the rise  
I m on the backside of paradise

(Guitar solo: **Eb, G#, B, C#, Eb, B, Bb7, Eb**)

I can look out but I can t see within  
Can t face what s behind the mask  
On top of the world with you under my skin moving too fast  
She s a hot blooded octaroon with a heart cold as ice  
I m on the backside of paradise  
I m on the backside of paradise
