

Liver Let Die
Tony Sly

Capo 1

Em

I knew the car was waiting

C

I was running down the street

G **D**
trying to catch the last cab to a bar that I would meet

Em

All my friends acquaintences

C

It doesn't matter tonight

G **D** **C**
it's all about the songs and not the fights

DDDDDD

[chorus]

G **D**
So everybody sing along

Em **C**
This could be tonight's one more song

G **D**
This shot we take before the bell

Em **Am**
We raise our glass to songs

D
That we know so well

Em

I give to you this message

C

In a town so far away

G **D**
I wish that you are here is all but said it's so cliché

Em

Life is celebrated

C

And tonight is all for her

G **D** **Cm**
She sticks out just like a C minor

DDDDDD

[chorus x3 (second time can be muted or singing only)]

G **D**

Em **C**
This could be tonight s one more song

That we know so well

[ending]

That we know so well

That we know so well

That we know so well

That we know so well
