This is the part most people miss during this song. When the song is very low and the guitar is strumming. It is also very slow. And all you got to do is figure out the timing, and the song is so simple.

```
G-----10-----  
D---10--12---10--12-----10--12---10--12-----0--  
A-----8--10-----8--10-----  
E-----
```

Easy but it sounds great!
