note: any piano music, not to mention tori music specifically, does not
translate into guitar music very well. in fact, trying to do this with
any of tori s stuff is akin to some sort of blasphemy. take this for what
it is worth... this song actully transcribes a lot easier than most tori
songs, but the chords are still a little off at best due to tori s unique
chord choices...

capo first fret

Am	D	Am
god sometimes you just don t come through		
	D	Am
