Lyrics:

there s a problem with the government  
when the governments mad  
when the final solution comes it would be rad  
I don t care what the government say  
it just don t matter anyway  
I don t know if the government s true  
but the government s after you  
I don t need no politicians  
they always make the wrong decisions  
Don t even know wrong from right  
starting wars they don t even fight  
i guess that what it is i m trying to say  
is that they don t matter now anyway  
I don t know if the government s true  
but the government s after you

the guitar solo is pretty easy, just listen to the song and do any

improvisation.
