

Drag Him To The Roof

Toto

E (Guitar Riff)

They keep looking through the window -
a cathode glaze across their eyes
Not that I've betrayed, I must be well behaved,
I'll drink corruption with their lies

G **A** **G** **A**
Why was I hiding out? What am I running from?

G **A** **Bbm** **G** **A**
Why are they waiting? Have I always been the chosen one?

B **C#m** **A** **E** **B** **C#m** **A**
Drag him to the roof, just push me over. I've got no better place to be

B **C#m** **A** **E** **B** **C#m** **D** **C** **Bb**
A

Drag him to the roof, let's get it over it's a perfect day to punish me

E (Guitar Riff)

I wish that lady would defend me. I can't abide by all the laws
I'll buy the magistrate, can't be a second late, I anxiously await his call

G **A** **G** **A**
Who made this jigsaw puzzle? Who'll put the pieces back?

G **A** **Bm** **G** **A**
Who'll come and get me when I have fallen through the cracks?
