        Gm                          D#                       F
I was born in the land of the sun and the tall green grass
        Gm                          D#                F        C/G
And I don t understand how all this has come to pass
          Gm                        D#                F        C/G
How we ve come to surround ourselves in a sea of thieves
         D#                    F               Gm
In a land without learning only the fools believe.

        Gm                     D#                 F
I went driving last night on a dark canyon road
        Gm              D#              F        C/G
Had the sky to myself but I wasn t alone
        Gm                    D#                F        C/G
Had the pain of my lifetime for my company
D#                          F                   Gm
How did it end up like this for you and me?

      D#                              A#            F
When love breaks the promise the heart has to keep
    D#                           Gm
It leaves only truth here to find
         D#                             A#            F
When the spirit is crushed and the hurt is so deep
      D#
Between you and I.

A#              F                 Gm          F6/A                 D#
    Even when love has come and gone and our hearts have moved along
          F
I will remember.

```
A#                    F                       Gm
    There was a time we had the trust
           F6/A           D#
And that always was enough
           F        D#         F              Gm
I will remember.     I will remember you.

       F         Gm         Gm              D#   F    C/G
  |---------|----------|---------------|-------------------|
  |----3--2-|-0--------|-----------3--2-|-0-------0---------|
  |--3------|-----3----|---------3------|-----3-------------|
  |---------|----------|---------------|-------------------|
  |---------|----------|--5------------|-------------------|
  |---------|----------|--3------------|-------------------|

       Gm          D#            F
As I open my eyes to one more day
     Gm                   D#                    F         C/G
The wind burns my face as    it whispers your name
        Gm                 D#          F         C/G
As it s pulling me forward    it tears me free
D#                       F                   Gm
And the only thing left is the tears for you and me.

           D#                       A#              F
 Cause when love breaks the promise the heart has to keep
    D#                      Gm
It leaves only truth here to find
        D#                    A#         F
When the spirit is crushed and hurt is so deep
      D#
Between you and I.

A#              F                    Gm           F6/A                  D#
    Even when love has come and gone and our hearts have moved along
           F
I will remember.
A#           F            Gm
There was a time we had the trust

And that always was enough
          F        D#            F              Gm
I will remember.     I will remember you.

       F         Gm         Gm              D#   F    C/G

Fade away...
