

**Scars**

**Tove Lo**

Intro: **Dm C G**

Dm (dedilhado)

Scars we carry

Carry with memories, memories burned by the dark

Try to see clearly

Tears we bury

Bury in vain cause the pain got us falling apart

Try to see clearly

**Dm**

Now let the healing start

**C G**

The fires out of guns

**Dm**

We keep it in our hearts

**C G**

We re like a thousand suns

**Dm**

Ooh, yeah, every day, step by step

**C G**

We dare to love again

**Dm**

And if we lose our grip

**C G**

Meet you at the end

**Dm**

Know they re cutting you deep

**C**

Feel the scars in your sleep

**G**

What didn t kill us made us stronger

**Dm**

Stories left on our skin

**C**

Wear them with everything

**G**

What didn t kill us made us stronger

Dm (dedilhado)

Don t feel lonely

Loneliness kills all the thrill

From standing alone

Try to see clearly
