

**Down Low**

**Town Mountain**

[Verse 1]

**D**  
When you see me out tonight tearing up the promenade **G**  
**D**  
People stop and step aside so I can move along  
**G**  
Is it just because they re friendly or the fact that I am gone  
**D**  
Stepping over lines of the paths they travel on?

[Chorus]

**C** **G**  
Living on the high side  
**D**  
Better keep it on the low down  
**C** **G**  
Get to feeling just right  
**D**  
Think Iâ€™ll have to go and sit down

[Verse 2]

**D** **G**  
Do you reckon that they notice? Do you think that they believe?  
**D**  
I ve gotten into meanness on the dark end of the street  
**G**  
Do my eyes tell my condition? Does my breath show where I ve been?  
**D**  
Am I talking any louder than the compâ€™ny that I m in

[Chorus]

**C** **G**  
Living on the high side  
**D**  
Better keep it on the low down  
**C** **G**  
Get to feeling just right  
**D**  
Think Iâ€™ll have to go and sit down

[Bridge]

**A**  
Sweating like a preacher in the presence of the Lord

**G**  
Shaking like a leaf in the middle of a storm

**D** **G**  
Jawin my bone trying to make you see

**A**  
I wouldn't much fret if my friends were all here

**G**  
But there's people in the corner and they're starting to stare

**D**  
Having a ball poking fun at me

[Chorus]

**C** **G**  
Living on the high side

**D**  
Better keep it on the low down

**C** **G**  
Get to feeling just right

**D**  
Think I'll have to go and sit down

**C** **G**  
Straighten up and try to act right

**D**  
Keep it on the lowdown
