I use a picking style in those chords when playing.

(A)Brother flower (D)are you (A)listenin ?  
Let me (D)sing a song for (G)you  
(A)Brother flower, (D)petals (A)glistenin  
in the (D)bashful mornings (G)dew  
(A)Brother (D)flower when the (A)sun shines  
(A)and the (D)dew has flown B(A)way  
(G)If you don t mind (C)weak and (G)wrong rhymes  
Brother (D)flower may I (G)stay?

Brother Flower, you ain t lonely  
for you ve always been alone  
but I haven t been so lucky  
I had love and now it s gone  
I have arms to hold another  
never to hold her again  
I have life to give lover  
You have life to give the wind

Brother Flower, when the snow flies  
and you lay your beauty down  
Brother Flower, are you sleepin  
there upon the cold, cold ground  
Brother Flower, please awaken  
show the sky your face of blue  
let me know I ain t forsaken  
seems like all I have is you
