I heard her sing in tongues of silver  
**F#**                      **C#**                      **F#**  
I heard her cry on a summer storm  
                         **B**                      **F#**  
I loved her, but she did not know it  
                         **C#**                      **F#**  
So I don t think about her anymore  
**B**    **F#**  
Now she s gone, and I can t believe it  
                         **C#**                      **F#**  
So I don t think about her anymore

**F#**    **B**                      **F#**  
If three and four were seven only  
   **C#**                      **F#**  
Where would that leave one and two  
                         **B**                      **F#**  
If love can be and still be lonely  
                         **C#**                      **F#**  
Where does that leave me and you?  
**B**    **F#**  
Time there was, and time there will be  
                         **C#**                      **F#**  
Where does that leave me and you?

**F#**                      **B**                      **F#**  
If I had a buckskin stallion  
   **C#**                      **F#**  
I d tame him down and ride away  
                         **B**                      **F#**  
If I had a flyin schooner  
                         **C#**                      **F#**  
I d sail into the light of day  
**B**    **F#**  
If I had your love forever  
                         **C#**                      **F#**  
Sail into the light of day

**F#**    **B**                      **F#**  
Pretty songs and pretty places

**C#      F#**

Places that I ve never seen

**B      F#**

Pretty songs and pretty faces

**C#      F#**

Tell me what their laughter means

**B      F#**

Some look like they ll cry forever

**C#      F#**

Tell me what their laughter means

**F#      B      F#**

If I had a buckskin stallion

**C#      F#**

I d tame him down and ride away

**B      F#**

If I had a golden galleon

**C#      F#**

I d sail into the light of day

**B      F#**

If I had your love forever

**C#      F#**

Sail into the light of day
