Buckskin Stallion Blues
Townes Van Zandt

```
F#                          B          F#
I heard her sing in tongues of silver
F#           C#                  F#
I heard her cry on a summer storm
              B                  F#
I loved her, but she did not know it
         C#                  F#
So I don t think about her anymore
B                             F#
Now she s gone, and I can t believe it
               C#         F#
So I don t think about her anymore

F#                           B       F#
If three and four were seven only
                    C#         F#
Where would that leave one and two
                  B        F#
If love can be and still be lonely
                    C#         F#
Where does that leave me and you?
B                              F#
Time there was, and time there will be
                    C#         F#
Where does that leave me and you?

F#           B          F#
If I had a buckskin stallion
                    C#       F#
I d tame him down and ride away
           B         F#
If I had a flyin  schooner
                  C#           F#
I d sail into the light of day
B                         F#
If I had your love forever
             C#           F#
Sail into the light of day

F#                      B       F#
Pretty songs and pretty places
```

```
                C#        F#
Places that I ve never seen
                  B         F#
Pretty songs and pretty faces
                  C#          F#
Tell me what their laughter means
B                            F#
Some look like they ll cry forever
                  C#          F#
Tell me what their laughter means

F#            B          F#
If I had a buckskin stallion
                      C#       F#
I d tame him down and ride away
          B        F#
If I had a golden galleon
                  C#          F#
I d sail into the light of day
B                     F#
If I had your love forever
              C#          F#
Sail into the light of day
