Still Looking For You
Townes Van Zandt

```
G           C         G
Ain t much I ain t tried
       C         G
fast livin  slow suicide
                           D
then a-runnin  in a place to hide
 C               G
just looking for you

   G          C     G
My friends they all agree
       C         G
ain t many a fool like me
         D
I just tell them wait and see
 C             G
go looking for you

        C
Looking low and looking high
looking far and looking wide
try to tell myself that I m fine
                   G
but it just ain t true
          D
it just ain t true
                    C
I m still looking for you
                G
still looking for you

From the shadow of the darkest pine
to the edge of the sweet sunshine
I keep looking till they make you mine
looking for you

When the curtain tumbles down
I ll be somewhere hanging round
with my heart laid on the ground
just looking for you

Looking low and looking high
looking far and looking wide
try to tell myself that I tried
but it just ain t true
it just won t do
I m still looking for you
```

still looking for you
