Capo 2nd

A **D**
Do you recall when I was six
A **E**
I got lost out in the woods and you worried yourself sick
A **D**
What about the day I got in my first fight
A **E**
Mama she got mad but you swelled up with pride
D **A**
I never knew how deep a fathers love could run
D **E**
Until I had a son

{Chorus}

C
From watching him learn how to crawl
F
To skinned up knees from skateboard falls **G**
C
To praying he d get through football alive
C
From hearing his first words spoken
F
The first time his heart got broken **G**
C
And knowing soon he ll spread his wings and fly
C **D**
I guess I didn t know what a Daddy goes thru
G
Til I was a Daddy too

Real love the kind that you can t understand
Until you hold it in your arms and touch it with your hands
Pure joy the kind that you can only find
When you live your life for them
And leave yourself behind
More and more I m seeing life go by
Thru my Daddy s eyes

{Chorus}

The fast pace of time goes racing
From first grade to graduation
And knowing soon he ll spread his wings and fly
I guess I didn t know what a Daddy goes through
Til I was a Daddy too

I guess I didn t know what a Daddy goes through
