**Im Not Waiting In Line**
**Train**

Hello, folks! Could just get the chords from the song... the solo was not possible
because I don t have a guitar to get the distortion effects and so on... but I hope
you ll enjoy that... then...

Chords:

**B** - x24442
**A** - x02220
G - 320033 or 355433
**D** - xx0232
E - 022100
F# - 244322
**C#m** - x46654*

*Note: I m not sure if A/C# (x42220) would sound better here, but I play with C#m

The stuff:

**B**, **D**, **E**, **G**, **A**

**B**                                        **C#m**

                         **D**
With a hold on what your worth
**D**

            **C#m**
And I d like to thank your mother for that

**B**                                        **C#m**

                      **E**

No tricks, no show
                              **B**
