C#m E A E B A
F#m G#m E

[Verse]
E
Tried to write a letter

To tell you how I feel

But all I kept on writing

A  C#m
Was slipping on the tears from the day

E
When I was young and brave

Now all these hotel lobbies are filled with what's to me

Lonely midnight drivers

Drifting out to sea
A
And all those late night lovers
A                 E
Don't make things better to me

[Chorus]
E
So let it roll into me
A             C#m
Let it roll into you
E
Let it roll into me
F#m         G#m     A             E
Let it roll back into when I had you

[Verse]
E
So I'll watch the snow come calling
And I'll celebrate the spring
I'll feel the falls keep falling
And when the summers come
F#m                E
I will pretend that I don't notice
A                                 E
That this is when I notice most of all

[Chorus]
E
So let it roll into me
A            C#m
Let it roll into you
    E
Let it roll into me
F#m       G#m   A         E
Let it roll back into when I had you

[Verse]
    A            F#m
And all you ever wanted for me
E               F#       F#m
Was the time to understand
A          F#m
And all I ever wanted for you
    E
Was to see me shining for you
