

**Lincoln Avenue

Lincoln Avenue  
Train

**C**                                **Em**                                **F**  
Well I guess this is where I left my life  
      **Dm7**

And all its operations  
**C**                                **Em**                                **F**  
And I know that I will never get this twice  
      **Dm7**

With all negotiations  
**Am**                                **E/G#**                                **Em/G**                                **F**  
This feels like the place between what is and might have been

**C**                                **Em**                                **F**  
So I guess this is where we both find out  
      **Dm7**  
If this was meant to be

**C**                                **Em**                                **F**  
And Iâ€™ll tell myself, I donâ€™t need you  
      **Dm7**

Iâ€™ll tell myself enough to get me through  
**C**                                **Em**                                **F**  
But Iâ€™ll finally show you how I should have been being with you every day  
      **Dm7**

If you can take a little more

**C**                                **Em**                                **F**  
Now it takes me back to times on Lincoln Avenue  
      **Dm7**

When you said youâ€™d never get tired of the boy  
**C**                                **Em**                                **F**  
That seemed to be so far from growing up  
      **Dm7**

But we were different then  
**Am**                                **E/G#**                                **Em/G**                                **F**  
This feels like the place between being ready and being in the way

**C**                                **Em**                                **F**  
And Iâ€™ll tell myself, I donâ€™t need you  
      **Dm7**

Iâ€™ll tell myself enough to get me through  
**C**                                **Em**                                **F**  
But Iâ€™ll finally show you how I should have been being with you every day  
      **Dm7**

If you can wait a little more

And I wonâ€™t blame you but Iâ€™m finally ready to show you
