

Meet Virginia
Train

Tabbed by unknown
Nick Strangis

Em - 022000
C - 032010
D - 054030

Longer spaces between numbers mean longer pauses.

Rhythm parts are just repeated throughout the song.

The chorus follows the pattern Em, C, D throughout the song
Sometimes I change this D chord to a regular D chord for the different sound.

Lead guitar parts will go in order

This is REAL hard to tab out since jimmy picks so fast, so bear with it. Keep in mind that a LOT of these notes are strummed several times before changing.
