The Finish Line
Train

Beautiful song by Train. Always makes me feel like crying. It s really easy to
play :)
CAPO 2
```
D                       G
I thought I knew it all
                          D
I ve been through the highs, said all my goodbyes
   A                             D
Learned to run before I learned to crawl
                       G              D
It s not worth fighting for if one of us is sure
             A              Bm       G
And one of us is dying, trying to find loves cure

D               G                       D
I have waited all my life to paint these cities red
                      A              D
Thoughts I ve always had here are stuck inside my head
                   G                  D
It s not worth waiting for if one of us wants more
             A              Bm       G
And one of us is dying, trying to find love s door

G         A         Bm
When we learn how to fly
     A         G
We forget how to walk
         A         Bm
When we learn how to sing
             A                  G
We don t wanna hear each other talk
         A              Bm    A  G
Here we are at the finish line, ah ah
         A              Bm
Here we are at the finish line

     D                       G
And you, you really thought you knew
              D
Everything to do
                A
With holding onto me and holding on
      D                  G              D
This time is making me slip right through your hands
                   A
And now you don t understand
              Bm          G
```

Trying to find love all yourself

G   **A**   **Bm**
When we learn how to fly,
      A   **G**
We forget how to walk
            A   **Bm**
When we learn how to sing
                  A   **G**
We don t wanna hear each other talk
          A   **Bm**
When we know what we want
        A   **G**
We forget what we need
            A   **Bm**
When you find who you are
        A   **G**
You forget about me

G   **A**   **Bm**   **A**   **G**
Here we are at the finish line, ah ah
            A   **Bm**   **A** **G**
Here we are at the finish line, ah ah
            A   **Bm**   **A** **G**
Here we are at the finish line, ah ah
G   **A** **Bm** **A**   **G**   **A**   **Bm**
Ah, ah, ah, ah, ah, ah, ah , ah

.... until end
A   **Bm** **G**
ah, ah
