

D-0-2-

**F** **C** **Am**  
And every sunset that we ll miss

**C** **F**  
I ll wrap them all up in a kiss

**C** **Asus A**  
And pick you up in all of this when I sail away

**F** **C**  
And while I float upon this ocean

**F** **C** **Eb** **D**  
I can feel you like a notion that I hope will never leave

**F** **C**  
Cause when I look to the sky

**Am**  
something tells me you re here with me

**C** **G**  
And you make everything alright

**F** **C**  
And when I feel like I m lost

**Am**  
something tells me you re here with me

**C** **G** (no chord)  
And I can always find my way when you are here

**F** **C**  
Whether I am up or down or in or out

**F**  
or just plane overhead

**C**  
Instead it just feels like it is impossible to fly

**F**  
But with you I can spread my wings

**C**  
to see me over everything

**F** **C**  
that life may send me when I am hoping it won t pass me by

**F** **C**  
And when I feel like there is no one

**F**  
that will ever know me

**C**  
there you are to show me

**F** **C**  
Cause when I look to the sky

**Am**  
something tells me you re here with me

**C** **G**  
And you make everything alright

**F** **C**  
And when I feel like I m lost  
**Am**  
something tells me you re here with me  
**C** **G**  
And I can always find my way when you are here

**F** **C**  
Cause when I look to the sky  
**Am**  
something tells me you re here with me  
**C** **G**  
And you make everything alright

**F** **C**  
And when I feel like I m lost  
**Am**  
something tells me you re here with me  
**C** **G** **C**  
And I can always find my way when you are here
