

Again

Trampled by Turtles

I haven't seen anything on this song anywhere on the web so I tried to tackle it myself

and see if that gets the ball rolling. I am no expert this just sounded decent to me.

Please if anyone knows the real chords put em on here its a great song by a great band.

so anyway this is what I came up with:

G C A

G C
Living like a window

G
Stuck wide open

A
Take it all in

C G
But don't let it burn you out

C G
I know you have your doubts

C A
But just forget them now

G C G
Will I see you

C G
Will I see you

C G
Will I see you

A
Again

G C G
Will I see you

C G
Will I see you

C A
Will I see you

G
Again

Dreaming doesn't make much
Sense anymore
All the demons
They're howling at your door
Still you beg for more
Ain't it over yet

Will I see you
Will I see you
Will I see you
Again

Will I see you
Will I see you
Will I see you
Again
