

**The One To Save
Trampled by Turtles**

Capo 4th fret (how I figured it out anyway)

Intro x1

C F Am F G C

C F C
Sometimes I wish I was dead and gone

G
Would not walk this world no more

F C Am
And all my troubles will pass away

C G C
As I walk through Heaven's door

C F C
As long as I can remember now

G
Been out here all my own

F C Am
Oh how I wish I was in your arms

C G C
To rest my achy bones

F C
Can't put me in the water

F G
Can't put me in my grave

C F Am
But no matter what you want from me

F G C
I ain't the one to save

It's lonely in a border town
Where no one knows your name
I'll spin this world right into the ground
Til only light remains

When doors are shut for you my dear
You simply bring them down
But I just sit there biding my time
Until the keys just came around
