Tuning:Normal(seven string)

This is a really awesome song that sounded great when I saw them with Nickelback. Great

play live.(by the way, Chris Brown just sings--No guitar.)

Before playing the intro riff, do a pick slide smothered with * do the intro in both the intro and pre-chorus then go into the chorus.

```
|-----|
|-----|
|-----|
|-----| Intro Riff
|-----7-----7-----7-7-----|
|-7-7-----7-7-----7-7-----|
|-5-5-----5-5-----5-5-----3-3-----|
```

```
|-----|
|-----|
|-----|
|-----|
|-2-----7-----| Chorus(repeat as needed)
|-2--5---7---5-----|
|---3---5-----|
```

As a Twelve year old i think it is my responsibility to tab the song no one else would

you would have at least one * tab is intermediate because not everybody has a handy even though they should (very handy for Korn and other hard rock). this is maybe a

off key but you can always slide it around a few frets. Respect ma authorita!
