

Foolish Pride
Travis Tritt

====Tabber s note====

To play this song in tune with the CD, say, you would have to play the F chord to start off with. However I will be playing with a capo on the first fret. As such, I will be labeling the chords to compensate for that.

[Verse 2]

He relives every word they spoke in anger
He walks the floor and punches out the wall
To apologize to her would be so simple
But instead he cries I ll be damned if I ll crawl
If he loses her he s lost his best friend
And that s more then just a lover can provide
So he wrestles with emotions that defeat him
Chalk another love lost up to foolish pride

[Chorus]

Turn out the lights the competition s over
The stubborn souls are the losers here tonight
And while the bridges burn, another hard-hard lesson s learned
As through the ashes passion slowly dies
And this romance goes down to foolish pride

A **B** **E**

Chalk another heartbreak up to foolish pride
