                                       Em
 Another day I feel the weight of the atmosphere s pressure
And I can t escape
I try to run, I try to find my feet
My soul is sticking to the street
 I get a move
                       Em
I got to get myself to clean my shoes
And take the cynic route
I was afar, I m following the star
Home is anywhere you are
                   D
And everything is falling into place
            Em
And then we move again
So take the curve and move along
            D
Until we re gone, we re moving on
    G
And on, and on, and on
And on, and on, and on
And on, and on, and on
                                  Em
 I feel alive, I am aware of the colors in the sky
And where the birds don t fly
And if the night is coming pretty soon
I m walking through the dark with you
 I ve got to play
```

I ve got to listen to my toy today

On the motorway
And I could feel, the ground beneath my wheels
Putting me back in my place
                 D
And everything is falling into place
         Em
                C
And then we move again
So take the curve and move along
 C D Em C
Until we re gone, we re moving on
And on, and on, and on
And on, and on, and on
And on, and on, and on
            C
And on, and on, and on
And on, and on, and on
And on, and on

 Another day, another place where I can find my way
Take the avenue way
And I know exactly where to go
Home is anywhere you stay
                 D
And everything is falling into place
                C
    D
           Em
And then we move again
So take the curve and move along
                 Em

Until we re gone, we re moving on
And on, and on, and on
And on, and on, and on
And on, and on, and on
I feel alive, I am aware of the colors in the sky
