

Walking In The Sun
Travis

These are just the basic chords of the song. Im only putting them up because I haven t seen any other tabs yet for it.

Standard Tuning.
Intro: **A, Bm, D, E**

Verse:

A Bm D E
I was walking along in the sun

A Bm D E
taking pictures of everyone...

Chorus:

A Bm D Bm D Bm D E

Haven t worked out the middle eight yet. Sorry.

Last Verse (Key Change): **B A E**

That should be enough to get along with, it s a pretty simple song. It s in the right key of the video where i worked it out from. Don t know if the cd recording is in the same key or not (like the darkness s I believe in a thing...)
