

How The Other Half Live Tribes

How The Other Half Live

Verse 1:

C **Bb**
Twisted and bent out of shape
F **C**
We might need a change of direction
C **Bb**
It's all depending, I have it worked out
F **C**
My brothers are about for some action

Chorus:

G **F** **C**
Back against the wall
G **F** **C**
Face all in to fall
Bb **F** **C**
Ain't it strange how the other half live?
Bb **F** **C**
Ain't it strange how the other half live?

Verse 2:

Quit condescending, it's driving me mad
Like you're looking for some kind of reaction
No mediocrity with the circus in town
Like you're waiting for the crowd to break open

Chorus:

Back against the wall
Face all in to fall
Ain't it strange how the other half live?
Ain't it strange how the other half live?

Give it, give it, give it
You gotta give it some time
You gotta give it some time
Before you try to give up

Give it, give it, give it
You gotta give it some time
You gotta give it some time
Before you try to give up

Give it, give it, give it

You gotta give it some time
You gotta give it some time
Before you try to give up

Give it, give it, give it
You gotta give it some time
You gotta give it some time
Before you try to give up
