Tuning: Standard

This is the very first tab I ve ever made in my entire life. I ve heard this song several times for years now, but lately it has been echoing in my head to the point I needed to play it.

There is NOTHING on the internet for this song, so I had to figure it out on my own - otherwise, I d never sleep again xD

Here s what I came up with...and btw, I am not a pro at this, so forgive my mistakes; any constructive suggestions are always welcome.
