

Ice Queen

Trish Thuy Trang

There was no guitar in the original recording, but I think I got this down pretty well despite that. No capo required.

Ice Queen - Trish Thuy Trang

VERSE 1

Am **F**
Once so long ago
 C
My heart was crushed
 G
And turned to stone
Am **F**
Now a cold façade
 C
Protects and shields
 G **E**
Their words echo

CHORUS

Am
Here comes the ice queen
No heart and no emotions
G
So it seems
 F
But they don t really know how I can be
 E
Don t judge me based on what you see
 Am
The lonely ice queen
 G
No one is ever good enough it seems
 F
I m just a little shy, misunderstood
 E
You think that you could melt my heart
 Am
Then break the ice

VERSE 2

Am **F**

Snow fell all around

C

Onto the ground

G

They put me down

Am **F**

Trapped beneath the ice

No sign of fire

G

E

But still they cry
