

Just A Little Bit
Tristan Prettyman

I figured out the chords by watching a couple of her live versions of this song.
While
live she uses the capo on the second fret, but on the album she does not use a capo.
there is an extra verse she throws in at the end playing live, which is what I wrote
So, depending on which version you prefer the lyrics and capo use will differ. I am also not
sure about the (*) chord, but it sounds all right.
