Intro: **C# Fmin G# Gm7** (x2)

Verse:

C# **Fmin** **G#**
Wish I would have listened to myself
 Gm7
You would have thought I d known better
C# **Fmin**
Shouldn t trust my heart this time
 G# **Gm7**
With a mind that changes like the weather
C# **Fmin** **G#** **Gm7**
The scars will fade away, I may never be the same
C#
But you can t start a fire in the pouring rain
Never say never

Now I hear you re back to your old self
And I still can t imagine
Why you take something good like love, like us
And pretend it never happened
You ll look back one day
And you ll wish we still had that flame
But you can t start a fire in the pouring rain
Never say never

CHORUS:

C# G# Fmin
You said you would
Gm7
Never let me go
C# G#
You promised me
Fmin Gm7
Our love, written on the wall
C# G# Fmin Gm7
Felt so easy
C# Eb
Well I shoulda known better...
To never say never

Verse:

Gotta be careful what you give
You never know, just what you ll get
Who knows maybe the best
Hasn t happened yet
Some days I still feel the same
My love, it still remains
Wish I could start a fire in the pouring rain

CHORUS:

You said you would
Never let me go
You promised me
Our love, written on the wall
Felt so easy
But I shoulda known better...
To never say never

Instrumental/ Ad libs: **C# Fmin G# Gm7 (x2)**

Bridge:

C# Gm7
You told the whole world you were all mine
Fmin
You put it in my head, that we were doing fine
Am I the only one who remembers
C# Gm7
It doesn t matter now, if you change your mind
Fmin
Cause I won t be around, when you realize
C# Eb
Nothing really lasts forever
C# G# Fmin Gm7
Flames in the sky
C# G# Fmin Gm7

And there s smoke in my eyes, oh honey

C# **G#** **Fmin** **Gm7**

You set me free

C#

So don t say you miss me

Gm7

Just don t say... you miss me

CHORUS:

You said you would

Never let me go

You promised me

Our love, written on the wall

Felt so easy

But I shoulda known better...

To never say never
