Intro: **D F#min A G#m7** (x2)

Verse:

D F#min A
Wish I would have listened to myself
G#m7
You would have thought I d known better
D F#min
Shouldn t trust my heart this time
A G#m7
With a mind that changes like the weather
D F#min A G#m7
The scars will fade away, I may never be the same
D
But you can t start a fire in the pouring rain
Never say never

Now I hear you re back to your old self
And I still can t imagine
Why you take something good like love, like us
And pretend it never happened
You ll look back one day
And you ll wish we still had that flame
But you can t start a fire in the pouring rain
Never say never

And there s smoke in my eyes, oh honey

D **A** **F#m7** **G#m7**

You set me free

D

So don t say you miss me

G#m7

Just don t say... you miss me

CHORUS:

You said you would

Never let me go

You promised me

Our love, written on the wall

Felt so easy

But I shoulda known better...

To never say never
